## DETAILED ACTION

### *Drawings*

1. The drawings filed on 07/21/2003 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.
2. The drawings are objected to under 37 CFR 1.83(a) because they fail to show proper labels of claimed material as described in the specification. For instance, **#30** in **Fig 1** should be labeled as the "**High Level Selection Circuit**", **#29** in **Fig 1** should be labeled as the "**Dummy Buffer**", and etc. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering

Art Unit: 2819

of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. **Figures 3 and 4** should be designated by a legend such as **--Prior Art--** because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

4. The disclosure is objected to because of the following informality:

--In **line 29** on **page 5**, "**103**" should be replaced with "**103a**".

Appropriate correction is required.

***Allowable Subject Matter***

5. **Claims 1-20** are allowed.

6. The following is an examiner's statement of reasons for allowance:

The present invention comprises a data transmission circuit having a first transmission mode and a second transmission mode transmitting data at a lower speed than the first transmission. The circuit includes a constant current driver, a buffer circuitry, a dummy buffer circuitry including switching elements and a selection circuit that selects between the buffer and dummy buffer depending on an impedance control signal. The closest prior art, Yahishita et al. (US 6,525,570) and Yashishita et al. (US 6,876,225) discloses an Input/output Interfacing Circuit, Input/output Interface, and Semiconductor Device Having Input/output Interfacing Circuit. However, Yahsishita fails to disclose a high-speed vs low speed mode of operation. Yahsishita also does not disclose both a buffer and a dummy buffer being selected based on an impedance control signal. The distinct features have been added to the independent claims 1, 7, 17 and 19, therefore, rendering them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
